

Countries in the region are at the similar technical level of development and practice in electricity distribution with similar problems in operation and management of distribution networks. They are at different levels of restructuring, deregulation and privatization process of electric power industries and face the similar challenges in opening of electricity markets.

The Conference should enable regional exchange of experience and practice in shared problems of technology development, reorganization and modernization of electricity distribution.

The Conference will be accompanied with an interesting exhibition of equipment and services from the region.

Who should attend the Conference?

- Managers of Electricity Distribution Companies
- Engineers and experts in different fields of electricity distribution
- Users and maintenance engineers of electricity distribution equipment
- Manufacturers of equipment in energy and power distribution
- Professors and researchers
- Consultants and designer
